Please record the following information based on your observations:

Gender:
- Female
- Male

Ethnicity:
- YES, Hispanic/Latino
- NO, not Hispanic/Latino
- NOT SURE, might be Hispanic/Latino

Please ask the person you spoke to the following questions and record his or her responses. Please only ask the questions related to the content you covered in your conversation. For example, if you did not discuss making healthy lifestyle choices, please skip question 6.

1. Did you learn anything about breast health today that you did not know before?
   - Yes
   - No
   - Not Sure

2. Will you share the breast health information you received today with a family member or friend?
   - Yes
   - No
   - Not Sure

3. Can you name the two most common risk factors for breast cancer?
   1. 
   2. 

4. (ASK WOMEN ONLY) Will you talk to your doctor about what breast cancer screening tests are right for you?
   - Yes
   - No
   - Not Sure
5. Will you visit a health care professional if you notice any changes in your breasts?
   - Yes
   - No
   - Not Sure

6. Do you plan to make lifestyle choices that could reduce your risk of getting breast cancer?
   - Yes
   - No
   - Not Sure

6a. (IF YES) What steps do you plan to take in the future that may reduce your risk of breast cancer?
   Please check all that apply.
   - Maintain or add exercise into their routine
   - Achieve or maintain a healthy weight
   - Avoid or limit alcohol
   - Breastfeed future babies
   - Avoid or limit menopausal hormonal medications

7. Do you have health insurance?
   - Yes
   - No
   - Not Sure

**Note for Educator:**
Question 3 is a knowledge question to which the answers are “getting older” and “being a woman.” While it is important to record all responses, whether they are correct or not, if an incorrect response is given, please follow up the survey by reminding people of the correct responses (see example message below).

**Example:**
If the respondent lists other correct risk factors, acknowledge that she or he correctly identified two risk factors by saying, “That’s right, those are risk factors for breast cancer. And the two most common risk factors are two others that we cannot control: being a woman and getting older.”
